WORK EXPERIENCE

Innovaccer

Software Development Engineer - 2   02/2023 - present
- Led healthcare AI development, wrote **prompts** for OpenAI's **GenAI**, and integrated them with the **React** app. Reduced doctor's documentation by **30%** and boosted patient outreach by **125%**.
- Collaborated across and within teams to **integrate RESTful APIs** and troubleshoot issues.
- Led feature development, including repository setup, linting, **CI/CD**, testing with **Playwright** and **Jest**, and managing deployment across Dev, Staging, Prod, and Customer prod environments.
- Attained a **96%** code coverage with **Jest and RTL**, ensuring adaptability to changing requirements.
- Engineered **APIs** utilizing **Python**, **Django**, **MongoDB**, **Redis**, and Migration scripts.

Software Development Engineer - 1   01/2022 - 02/2023
- Architected dynamic, **scalable** components and configuration-driven solutions, accelerating feature delivery by **53-71%**, reducing the timeline from 30-45 days to 8-14 days using **React**, **Typescript**, **ES6**.
- Crafted interactive user **interfaces**, and reusable components that are **cross-browser compatible**.

Accolite Digital

Software Engineer   02/2021 - 01/2022
- Created responsive user interfaces using **React-Native**, **NextJs, Redux,** and **TailwindCSS**.
- Built a training management portal using Angular for tracking training sessions, scores, and attendance.

TECHNICAL SKILLS

- **Languages & Databases:** Javascript, C++, Typescript, Python, MongoDB, MYSQL
- **Frameworks & Libraries:** React, Redux, React-Native, Django, Express, Angular, TailwindCSS
- **Technical Skills:** Problem-Solving, Data Structures, Prompt Engineering, Git, CI/CD, HTML5, CSS3

PROJECTS

- Automated Student Management Kiosk Using Devops (Github)
  Led **React** and **Node.js** development and set up an automated CI/CD pipeline with **Jenkins**.
- Expense calculator (Github)
  Developed React app using **custom hooks** and **context API** for calculating expenses.

ACHIEVEMENTS

- Achieved **1st place** in the Accolite training program out of 200 candidates.
- Ranked in the top **3 percentile** in HackwithInfy 2020.
- Solved **450+ problems** on Geeks for Geeks and Leetcode.
- Author at Geeks for Geeks and Sanfoundry. Wrote **50+ articles** on Data Structures and algorithms.

EDUCATION

- Jaypee Institue of Information Technology   06/2017 - 06/2021
  Bachelor of Technology - **Computer Science** Engineering (**8.6** / 10)
